Edited by:– Center for Studies in European Integration (CSEI), Academy of Economic Studies of Moldova (ASEM)

*The CSEI Working Papers (WP)* is a peer-reviewed academic online journal with four issues a year. Being launched by Center for Studies in European Integration, it offers an opportunity for young researchers to publish their scholarly papers, the results of their research activity, to get a feedback from the other researchers, to improve the methodology and to validate the results. Additionally, it encourages the exchange of the latest academic research and provides all those involved in research and practice with news, research findings, case examples and discussions.

The editorial policy of the CSEI WP aims to encourage the authors to express their most original opinions through their articles, reviews, and thoughts in various directions of the economic research. Furthermore, the Editorial Board and the Editorial team of the CSEI WP welcome all the scientific contributions, promoting the achievements and the performance within the national economy and regional context. The journal publishes the articles which meet the standards of the scientific publications, meaning that they have not been published in other journals, books or editorials; are original; mention the cited data sources and ideas in the bibliography etc. The editorial aims to publish the materials both of the recognized researchers as well as of the young researchers - PhD and master students, thus, providing them with access to the international scientific communication.

CSIE Working Papers reviews broad spectrum of topics related to European Studies, such as:

1. Economic integration process
2. European Union in the XXIst century
3. European institutions and policies
4. Regional development and competitiveness
5. The challenges of the EU enlargement process
6. European Business Environment
7. Globalization and regionalism

**Terms of publication:** The articles are to be presented to the editorial staff in English and Romanian, and to be in compliance with the general rules of writing and editing established by the Editorial Board and set forth in the Publishing Regulation of the WP. The materials proposed

for publication are reviewed, obligatorily, by two independent reviewers, based on which the editorial team, coordinated by the Editor-in-Chief, makes the final decision regarding the acceptance or rejection of the article. The responsibility for the originality and the information included in the articles rests entirely on the respective author, who, with the submission of the article, signs a Statement, of the non-plagiarism type, on their own responsibility in case of plagiarism, stating that the liability rests exclusively on the author who committed plagiarism. The editorial office has the right to reject materials which do not meet the technical presentation requirements outlined in the Regulation or which were classified by the independent reviewers as lacking scientific value. The Editorial Board reserves the rights to edit the submitted articles. The copyright of the published article belongs to the author. The use of the texts published in the WP is possible only with the consent of the author. The responsibility of each published text lies with the author. The Editor's opinion may be different from the author's opinion. The authors should meet the criteria set out in the Regulation on the assessment and classification of scientific journals, approved by the Decision of the Supreme Council for Science and Technological Development of the Academy of Sciences, No 196 of 18.10.2012.

#### **WP - Open Access electronic journal.**

"The Institutional policy of the Academy of Economic Studies of Moldova on the Open Access" (approved by the Decision no. 2/3 of AESM Senate of December 24, 2012), which recognizes the strategic importance of the Open Access to information for the dissemination of the scientific knowledge in the spirit promoted by the international initiatives and declarations. The overall goal of Open Access is to benefit from international information content and to ensure local content creation and distribution. AESM is interested in the promotion of a new Open Access paradigm, in order to provide more benefits to science and society. Therefore, AESM undertakes to disseminate the results of the research funded by public funds and the projects based on the Open Access principles; to encourage the researchers to show their support for Open Access, by publishing articles in open access journals and the institutional repository of AESM. The state policy in the science and innovation field is carried out under the Code on Science and Innovation of the Republic, passed in 2004, which provides guaranteed access to scientific information.
